Persuasive review - why should other people read this book?

It has a very interesting start which makes you want to continue reading it. It has lots of suspense moments and so it's unclear how the story will end. The writer never loses ideas as the stories are short and action packed.

The story would appeal to 8's and over as the story is easy to read with a small amount of long words that you don't know the meaning of.

All in all the story is an exciting, easy to read and action packed story.
